A Chevrolet truck, driven by Warren Powers and owned by Alton and Charles Bartlett of Hanover, left the road on the embankment near Harry Brown's on the Bethel-Locke Mills road Wednesday. LEADING THE CLASS OF 1940

Gurdon Buck and Mary Buck of Naples; Anne Ring of Locke Mills; and Sherman Williamson of Newry

SAFETY FIRST

It seems to be only a question of time before the vicinity of the traffic signal at the head of Main Street will be the scene of an accident or tragedy which will open the eyes of the citizens to the needless hazards of reckless driving. Recent examples of thoughtless speeding occurred Monday afternoon during the few minutes immediately following the sounding of the fire alarm. In that short time at least two cars speeded up Main Street and passed to the left of the signal in a bee line for the upper hose house.

In a time like that we do not understand that the ordinary rules of traffic and courtesy are suspended, and certainly there is no reason for doing so. The distances in the village are not great enough to excuse a high rate of speed and the need of members of the fire company to be at their posts is not of such importance that their life or anyone's life should be endangered in the least.

Those who have seen this performance repeated by firemen and hurrying spectators can now govern themselves accordingly and hope that little children and careful motorists may not suffer.

Miss Virginia Bean underwent a tonsil operation at the Rumford hospital Monday.

Mrs. Blanche Kneeland and son William of South Paris were Sunday visitors in town.

Miss Sylvia Merrill entertained at a dinner party at her home last Thursday evening. Mrs. Frances Cook, Mrs. Hugh Thurston, Miss Marguerite Hall, Miss Virginia Bean and Miss Elizabeth Lyon.

Fred A. Tibbets has resigned his position as assistant cashier of the First Portland National Bank to become cashier of the North Adams, Mass., National Bank. Mr. Tibbets lived in Bethel several years and worked in the Bethel National Bank before going to the Portland bank in 1920.

Mrs. Ada Tyler and Mrs. Mina Harriman were surprised Wednesday afternoon of last week at their home by friends. A social hour was held. Those in the party were: Mrs. Frances Cook, Mrs. Carrie Merrill, Mrs. Stanley Wentzell, Mrs. M. A. Gordon, Mrs. H. I. Bean, Mrs. Elsie Potter, Mrs. Ethel Hazelton, Miss Eugenia Hazelton, Mrs. Fred Clark, Mrs. Edith Grover and Miss Arlene Potter.

GOULD HONOR PARTS ANNOUNCED

TOMORROW

He was going to be all that he
wanted to be—

Tomorrow.
No one should be kinder or braver
than he—

Tomorrow.
A friend who was troubled and
weary, he knew—who'd be glad
of a lift—and who needed it, too
—on him, he would call and see
what he could do—

Tomorrow.
Each morning he stacked up the
letters he'd write—

Tomorrow.
And thoughts of the folks he would
fill with delight—

Tomorrow.
It was too bad, indeed, he was busy
today, and hadn't the minute to
stop on his way. "More time I
will have to give others," he'd
say—

Tomorrow.
The greatest of workers, this man
would have been—

Tomorrow.
The world would have known him
had he ever seen—

Tomorrow.
But, in fact, he passed on, and he
faded from view, and all that he
left here when living was
through, was a mountain of
things he intended to do—

Natural Pearls Cannot

Be Duplicated by Man

Dr. A. E. Alexander of the Mel-
lor institute has been studying
pearls chemically and physically
only to reach the conclusion that
nature's product has not yet been
exactly duplicated by man. Cultured
or artificial pearls, fine as they are,
bear no more relation to nature's
than gold-filled jewelry bears to the
solid gold article.

As nearly everybody now knows,
a real pearl forms in an oyster
around a grain of sand. Layer on
layer of "nacre" is deposited. The
color is always that of the shell
lining.

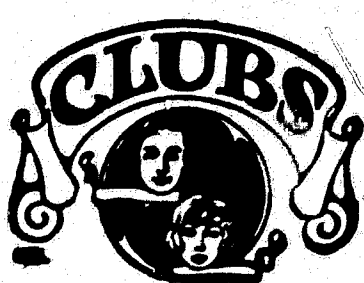

Chemical analysis shows that a
pearl is almost all calcium carbon-
ate, which is formed around a deli-
cate, lacy framework of organic
matter (conchoidal) much as enamel
is formed around the dentine of
teeth. The difference between nat-
ural and cultured or artificial pearls
seems to be not so much chemical
as physical.

Dr. Alexander bases his conclu-
sion that natural pearls have not yet
been successfully duplicated on
some fairly new tests. One of these
was devised by Chloovsky and Per-
rin. They found that light, totally
reflected within the natural pearl,
produces a characteristic flash. There
is no such flash within the cultu-
red pearl.

Magnetic tests have been devised
by Richard Nacken. These also dif-
ferentiate between natural and arti-
ficial and cultured pearls.

Simplest and oldest of all scien-
tific tests is that for specific gravity.
Cultured pearls have a specific grav-
ity of 2.70; natural pearls of 2.65.

The test has its limitations.
Commonest of all tests is that of
the X-ray. A natural pearl will scat-
ter X-rays uniformly and form a
6 or a 12 fold "spot" pattern, which
is really that of aragonite in the
pearl. A cultured pearl gives a
mottled cross or something that sug-
gests it.

Forty-eight members of the Ju-
nior Guild and Ladies' Club were
present at a novelty supper at
Garland Chapel, Wednesday, April
10. The program was as follows:
Poem, "Span of a Woman's Life,"
Mrs. Doris Lord; several selections
by the Gould Academy Choir under

THE OXFORD COUNTY UNITED PARISH NOTES

The United Pilgrim Fellowship enjoyed an April Fool party in the Wilkins House in Waterford last Friday evening. A North Waterford Committee was in charge. Saturday the Pilgrim Fellowship council met at the Waterford Parsonage.

Sunday marked the beginning of the fifteenth year of continuous publication of the "Oxford County United Parish Calendar." Quoting from the April 7th "Calendar": "Almost as regularly as the weeks have come, the United Parish Calendar has been waiting at the Churches for your reading, your help in worship and to keep you posted in regard to events in the Parish. We hope it has always been a reminder that we are working together as one parish for the more abundant life." The Parish and Rev. Wilbur Bull are to be congratulated upon this continuity of persistence that has made possible this achievement.

On Monday evening the Building Committee of the Lovell Church met. On Tuesday evening the North Waterford Circle held a supper. On Wednesday the Lovell Y. A. met at the Church Vestry for their regular fortnightly meeting.

On Monday, the 15th, the Lovell Men's Club will hold their regular monthly meeting.

Winter Sports Team Completes Second Successful Season

Since the inauguration of a winter sports program two years ago, progress has gone forward in rapid strides. Not only is the climate actually inviting to this type of program but it has been found that many who can not or do not participate in the other sports take great pleasure in skiing, snow-shoeing, etc. The winter sports team is but a small part of the complete program but does give those who have attained a certain degree of proficiency a chance to compete inter-scholastically with other schools in this vicinity.

This year meets were held with Hebron Academy, Bridgton Academy, Norway High School, and the team took part in the Waterford Carnival and also helped to make our own carnival one of the best and most interesting in recent years.

The first two meets scheduled with against Bridgton Academy and Hebron Academy. The local team was successful in the first meet but dropped the second to a strong Hebron team. The highlight of the season was the return meet with Bridgton at Pleasant Mountain. There the locals shut out the "preppers" taking the first four places in each event and first five places in cross-country. Then followed a meet with Hebron there, and again another loss after a close and exciting contest. At Waterford the team did very well in the skiing events but stood no chance against Norway's snowshoers. The next week Norway's ski team visited at Bethel and this time the locals gained their revenge despite the fact Norway had on their team two of the outstanding skiers in this section of the state. The Gould boys presented a more balanced team and therefore copped a majority of the points.

Outstanding men on this year's team included: Romeo Baker, who won more than his share of places, competing against the Academies. Erik Brown continued his fine work and although he was off form at the beginning of the season, came back again at the close to get his share of the glory. Runyon and Cummings, Sophomores, also took part in each meet and helped greatly to round out a well-balanced team. Adams, another Sophomore who had done very little skiing previous to this year, probably showed more improvement than any other man on the squad. Toward the end of the season he frequently placed in the team scores. Bull divided his time between basketball and skiing but proved himself an all-around performer, taking part in all four events and picking up many points. Miller, who won his letter last year, was up in cross-country and jumping, handicapped by an injury in the middle of the season and wasn't able to regain his form. Barker fact.

NEW CLUB TO PRESENT PLAY

The newly organized dramatic club of Bethel will present its first offering at Odeon Hall next Wednesday evening, April 17. This club, known as the Mystery Club, has selected for its first presentation that screamingly funny three act comedy, "Here Comes Patricia," by Eugene Hofer and produced by special arrangement with Walter H. Baker Co., Boston, Mass.

An exceedingly able cast has been found to do ample justice to this high class play. The cast is as follows:

Mrs. Carrol, a pleasant motherly widow, Marjorie Freeman; Elsie Crowder, a pretty young neighbor, Virginia Smith; Mrs. Smith-Porter, the town aristocracy, Rebecca Gordon; Angellina Knoop, another young neighbor, not so pretty, Elizabeth Lyon; Minnie Knoop, Angellina's cousin, Christie Thurston; Patricia Grayson, daughter of the governor, Marguerite Hall; Jimmy Clark, a newcomer in Fern-lawn, Charlie Smith; Elbert Hastings, a much abused member of the governor's staff, John King; Adam Wade, Jimmy's peppery boss, Charles Freeman; Tim Hopper, the town bad example, Howard Thurston; Bud Flannigan, a young man, evidently Irish, Richard Young.

The scene of the entire play is in Mrs. Carrol's living room at her home in Fernlawn. The time is the present—Spring! The play lasts approximately two and one-quarter hours and the specialties between the acts will provide a full evening of excellent entertainment for both young and old.
